:

Farmitalia Carlo Erba S.r.l., the owner of record in the Patent and Trademark Office (PTO), of U.S. Patent No. 4,219,478 which claims the approved product "MYCOBUTIN" filed an application for patent term extension under 35 U.S.C. 156 on February 11, 1993. An extension of 1,406 days is requested in accordance with the limitation of 35 U.S.C. 156(c). The original term of the patent was set to expire on April 25, 1995. Applicant requests an interim extension of the term of the patent for a period of one year.

The initial PTO review of the application to date indicates that the subject patent would be eligible for extension of the patent term under 35 U.S.C. 156. A final determination of the length of the extension of the patent term and issuance of a patent term extension certificate cannot be made until a final determination of the length of the regulatory review period is made. Since the original term of the patent will expire before a certificate of patent term extension can be issued, an interim extension of the patent term is appropriate.

An interim extension under 35 U.S.C. 156(e)(2) of the term of U.S. Patent No. 4,219,478 is granted for a period of one year from the original expiration date of the patent.
